

We are humbled! Through your generosity, the resulting donation total of \$57,500 from our Annual Appeal has far exceeded our hopes and dreams. On behalf of all volunteers, employees and patients of the clinic we wish you a sincere THANK YOU for your kindness.

This year's Annual Appeal was especially important with Covid-19 restricting any in-person fundraising events. Pandemic aside, you will be pleased to know that over the year the clinic has been busier than ever.

We have remained open throughout the pandemic and have continued to carry out our mission of providing local, bilingual healthcare to Ayer's Cliff and our surrounding communities. Your donations have provided valuable funds to permit continued operations, and have also helped to cover additional costs related to additional pandemic precautions.

Our membership continues to grow and we have been able to expand the number of doctors to cover 4 full days per week of appointments, up from 3 days per week last year. As we emerge from the pandemic with the aid of new vaccines we are planning several new initiatives that we believe will serve our community well and help us to return to a "normal" life.

Until then, let's stick together - stay safe and stay healthy!

THANK YOU for being part of our community!

Spotlight on two directors – your representatives to oversee the Centre de santé

Denise Morgan holds a master's degree in economics and worked in the Ministry of Finance of Québec for 14 years, where she was responsible for social policy issues. In addition, she honed her skills in administration at the Consulate General of France in Quebec. She has participated in the preparation of past Quebec Budgets and has written an official document interpreting the Civil Code of Quebec.

Dr. Catherine Milne was the first female surgeon to practice at the Royal Victoria Hospital in Montreal. She spent her 43-year career at RVH, where she chaired multiple hospital committees and was a member of the RVH Board of Directors. In addition, she was Associate Professor of Surgery and Oncology at McGill. Dr. Milne's passion was always patient care and she has been cited for her dedication to her patients and staff. She now resides in the Townships where she enjoys fly fishing, sailing and skiing.

Thank you for choosing Centre de santé and for your continued support.
